Court Receives Appearance Date Extension Request (FCC803)

Exchange Description

A trial court uses this California judicial branch XML schema-based data exchange to receive an appearance date extension request from an integration partner. Integration partners may use this data exchange to extend the date by which a participant must appear in court to address a specific case.

- The notification message sent by the integration partner to the trial court contains the appearance date extension request information (e.g., CCMS case number and participant).

- The response message sent by the trial court to the integration partner contains the appearance date extension response indicating whether the date extension has been accepted or rejected. If the date extension is accepted, traffic school information is returned (e.g., CCMS case number, number of extensions, and traffic school appearance date).

Business Response Exchanges

The business response refers to any subsequent exchanges that may occur as a direct result of this exchange.

- There is no business response to this exchange.

Error Handling

If the trial court does not successfully receive and process the incoming extension request message, the integration partner will receive an error message with an error code and error reason.

PROBABLE INTERESTED INTEGRATION PARTNERS

- All Integration Partners

RELATED EXCHANGES

Related data exchanges are any preceding or subsequent data exchanges that may be used by an integration partner as part of the overall business process related to this exchange.

- Court Receives Traffic School Enrollment Request (FCC804) data exchange, which is used to approve enrollment requests, and precedes this data exchange (FCC803), used to request an extension of an appearance date.

For more information about this and other data exchanges, contact integrationpartners@jud.ca.gov

Additional Information

- A single message is sent for each appearance date extension request.

- The response message to this exchange is sent immediately upon receipt and processing by CCMS.

- Both the success and error response messages must be sent as separate messages using the formats defined in this exchange.
